

Maeve Cantwell

Email: cantwell@hartford.edu Phone: (703)362-7136 Website: maevecantwell.github.io

Education:

University of Hartford, West Hartford, CT Expected Graduation Date: May 2021 GPA: 3.92

Major: B.S. in Mechanical Engineering – Acoustics Concentration

Minors: Math, Architectural Design + Technology

Relevant Courses:

- Architectural Design I
- Advanced Topics in Eng. Acoustics
- Vibrations I with Applications
- Thermodynamics I and II
- Fluid Mechanics
- Mechanical Design

Extracurriculars:

- Acoustical Society of America
- National Society for Leadership and Success
- Society of Women Engineers
- Alpha Lambda Delta National Honor Society
- Tau Beta Pi Engineering Honor Society - *secretary*
- Alpha Chi National Honor Society

Work Experience:

Statics Teaching Assistant, College of Engineering, Technology, and Architecture Fall 2019 and 2020
University of Hartford, West Hartford, CT

- I teach a review class to go over basic skills and practice problems for students struggling in statics
- Enhances my leadership and communication skills

Peer Tutor, University of Hartford Centralized Tutoring Center Fall 2018-Present
University of Hartford, West Hartford, CT

- I give aid and advice to students struggling in math, physics, and engineering courses
- Enhances my problem-solving, communication, and small-scale leadership skills

Lab Assistant, Acoustics Laboratory Spring 2019
University of Hartford, West Hartford, CT

- I did background research and gave design advice to two seniors working on their capstone project
- Increased my understanding of current and historical acoustic research

Internship:

Intern, Cerami and Associates Summer 2019
Cerami and Associates, New York, NY

- I worked in the D.C. office helping with reports, drawing markups, and measurements on job sites
- Gave me skills needed to work as an acoustic consultant

Projects and Research:

Architecture, Society, and Instrumentation Spring 2020

- Acoustical investigation into the complex history of influences to music in Western culture

Sound of the Violin Spring 2020-Present

- Grant-funded FEA simulation of Chladni patterns on the top plate of a violin

Granby Memorial Middle School Acoustic Analysis Spring 2019

- Sophomore project to give acoustic recommendations for the school's chorus room

Bear Mountain Lodge Spring 2019

- Project for Architectural Design I to design an Appalachian Trail shelter that sleeps 30 people

Body Image and First Impression Bias Fall 2018

- Gender studies elective project to investigate whether personal body image affects negative biases

Additional Experiences and Skills:

- Programming Languages: C++ and MATLAB
- Attended WE19 National Conference, Nov. 2019
- Basic woodshop skills
- Honors student
- Strong public speaking skills
- Instruments: Cello and Mountain Dulcimer
- Software: SketchUp, Solidworks, COMSOL, GIMP, Autodesk CAD and REVIT
- Languages: Some American Sign Language, conversant and literate in French, self-taught in Irish Gaelic
